Career Objective

To work with passion and apply my knowledge and skills effectively to contribute to the organization's success while continuously learning and growing in my professional journey

Education

B.E - Electronics and Communication Engineering

- 2021 - Present
- With CGPA of 7.80 (Upto 7 semester)

Knowledge Institute Of Technology, Salem

HSC

- 2021
- 87.7%

SSLC

- 2019
- 82.80%

Swamy Vivekananda Matriculation Higher Secondary School
Kanchamalaiyur, Salem

Internship

- **"Web Development"** at Technohacks 15 Mar 2024 – 14 Apr 2024
- **"Artificial Intelligence/Machine Learning"** at Nanda Info Tech, Coimbatore 2 Jan 2024 – 19 Jan 2024
- **"Internet of Things Using Node MCU"** at Enthu Technology Solution Pvt. Ltd., Coimbatore 03 Jul 2023 – 14 Jul 2023

Area of Interest

- Java Development
- Frontend Development
- Internet of Things

Technical Skill

- Java
- C
- My SQL

Boards Known

- Arduino
- ESP32
- ESP8266

Certification

- **"Java Programming :OOP and SQL"** by Ebox
- **"Introduction to IoT"** by Simplilearn
- **"Front-End Development"** by Great Learning

Projects

Consignment Management System

github.com/Saran092/Consignment-Application

Concept : Java Collections | Object-Oriented Programming (OOP)

- Developed a Consignment Tracking and Management System using Java Collections, enabling efficient tracking and management of consignments. The system allows users to add, update, and track consignments

ATM Management System

github.com/Saran092/Project-ATM

Concept : JDBC (Java Database Connectivity) | Object-Oriented Programming (OOP) | SQL

- Developed an ATM Management System using Java and SQL, providing a user-friendly interface for essential banking operations. The system allows users to create accounts, view balances, deposit funds, and withdraw cash.

Smart car parking using Ultrasonic Sensor

Concept : IoT (Internet of Things) | Arduino Microcontroller | Ultrasonic Sensors

- In my project on smart parking, I developed a system using ultrasonic sensors and Arduino microcontroller to accurately detect available parking space. The system provides real-time information to users, simplifying the parking process and enhancing convenience.

Achievements & Participation

- Shortlisted for second round in “E-Yantra Innovation Challenge” conducted by IIT Bombay.
- Participated in “Quest Global Ingenium” conducted by Quest Global.
- **Conducted a Hands-on training** session for junior students, organized by the ECE Technical Club[SDE].
- Presented paper on “AR & VR” at Bannari Amman Institute of Technology, Sathyamangalam

Extra-Curricular Activities

- Active Member in Sports
Runner Up in Cricket, Kabaddi

Soft Skill

- Adaptability
- Team Work

Declaration

- I hereby declare that all the above information is true and correct to the best of my knowledge
